

Data Collection

* Required

Search for Rowan Atkinson

How long did it take for user to perform this task? *

- ☒ Less than 5 secs
- ☐ More than 5 secs

Did the user require assistance for this phase? * *

- ☐ Yes
- ☒ No

How many attempts it took the user to choose an avatar? *

- ☒ One
- ☐ Two
- ☐ More than two

Other relevant observations on user's overall attitude

The user understood how to search for an avatar, but was disappointed to see that the feature wasn't working. Also pointed out that Rowan Atkinson is the default avatar so there's no need to search for him.

Turn the video output on/off

How long did it take for user to perform this task? *

- ☒ Less than 5 secs
- ☐ More than 5 secs

Did the user require assistance for this phase? * *

- ☐ Yes
- ☒ No

How many attempts it took the user? *

- ☒ One
- ☐ Two
- ☐ More than two

Other relevant observations on user's overall attitude

User noted that the disabling of the video output would be more clear if the big display showing the current image went to a black screen.

Choose Alan Rickman as the current avatar

How long did it take for user to perform this task? *

- ☒ Less than 5 secs
- ☐ More than 5 secs

Did the user require assistance for this phase? * *

- ☐ Yes
- ☒ No

How many attempts it took the user? *

- ☒ One
- ☐ Two
- ☐ More than two

Other relevant observations on user's overall attitude

The task seemed clear to the user as they were able to complete it with no issues|

Choose sad emotion for Alan Rickman

How long did it take for user to perform this task? *

- ☐ Less than 5 secs
- ☒ More than 5 secs

Did the user require assistance for this phase? * *

- ☐ Yes
- ☒ No

How many attempts it took the user? *

- ☐ One
- ☒ Two
- ☐ More than two

Was the user aware that they performed the task successfully?

☒ Yes

☐ No

Clear selection

Other relevant observations on user's overall attitude

The user first tried to click the sad emotion on the "Default Emotions" bar at the bottom of the application. When this didn't do anything, they were confused for a bit before they realized where they needed to click. The user explained how he thought those buttons were to show the different images stored for each emotion, not to actually switch emotions too.

Remove and then add Rowan Atkinson from favorites

How long did it take for user to perform this task? *

- ☒ Less than 5 secs
- ☐ More than 5 secs

Did the user require assistance for this phase? * *

- ☐ Yes
- ☒ No

How many attempts it took the user? *

- ☒ One
- ☐ Two
- ☐ More than two

Other relevant observations on user's overall attitude

The user easily located the star icon that is used to add/remove an avatar as a favourite.

Add a new avatar

How long did it take for user to perform this task? *

- ☒ Less than 5 secs
- ☐ More than 5 secs

Did the user require assistance for this phase? *

- ☐ Yes
- ☒ No

How many attempts it took the user? *

- ☒ One
- ☐ Two
- ☐ More than two

Other relevant observations on user's overall attitude

The user spotted the "add avatar" button quickly enough and was able to complete the task easily. The user noted that there seems to be no way to change the new avatar's name.

Add a happy picture for the new avatar

How long did it take for user to perform this task? *

- ☒ Less than 5 secs
- ☐ More than 5 secs

Did the user require assistance for this phase? * *

- ☐ Yes
- ☒ No

After successfully performing the task, was the user well-aware of having done the task?

- ☒ Yes
- ☐ No

Clear selection

Other relevant observations on user's overall attitude

Similarly to the previous task, the user found the necessary button with ease, and completed the task shortly thereafter. The user noted that for the purpose of this prototype, the simple generation of an image makes sense, but questioned how this task would be implemented on the actual application.

Set the new avatar's newly added happy picture as the default happy picture

How long did it take for user to perform this task? *

- ☒ Less than 5 secs
- ☐ More than 5 secs

Did the user require assistance for this phase? * *

- ☐ Yes
- ☒ No

How many attempts it took the user? *

- ☒ One
- ☐ Two
- ☐ More than two

Was the user aware that they performed the task successfully?

☒ Yes

☐ No

Clear selection

Other relevant observations on user's overall attitude

The user clicked on the new picture, and noticed that now it was shown in the "Default Emotions" tab instead of the default template that was initially there. |

Delete the default happy image from the new avatar

How long did it take for user to perform this task? *

- ☒ Less than 5 secs
- ☐ More than 5 secs

Did the user require assistance for this phase? *

- ☐ Yes
- ☒ No

Other relevant observations on user's overall attitude

The user noticed the little garbage icon above the image and clicked it, and was then prompted to make sure they wanted to delete the image. The user noted that this task was pretty straight forward.

While using Mel Gibson's avatar, enable detect facial expression mode

How long did it take for user to perform this task? *

- ☐ Less than 5 secs
- ☒ More than 5 secs

Was the user able to go to Mel Gibson's avatar without help?

- ☒ Yes
- ☐ No

Clear selection

Did the user require assistance for enabling the detect mode? *

- ☐ Yes
- ☒ No

Did the user find out about the outcomes of turning on and off?

- ☐ Yes
- ☐ No
- ☒ The user was unsure

Clear selection

Other relevant observations on user's overall attitude

When switching to the Mel Gibson avatar, the user first noticed how the newly created avatar disappeared. Continuing with the task at hand, the user scanned the screen quickly before finding the "Detect Facial Expression" button. Clicking the button resulted in a slide show of different pictures being shown, leaving the user somewhat confused. Based on the name of the button, the user ultimately understood what the button was for, but questioned the way it was shown in the prototype.
